School of Computing
RESEARCH ETHICS COMMITTEE

APPLICATION FORM FOR ETHICAL REVIEW OF A RESEARCH PROJECT INVOLVING HUMAN PARTICIPANTS WHICH IS IN THE CATEGORY OF NOTIFICATION ONLY

There are 3 generally accepted levels of ethical review for projects carried out in a University or similar setting. These are notification only, expediated and full committee.

This notification only level of review is to approve relatively low-risk research involving human participants, primarily using social science methodologies in which any personal information collected is not of a sensitive nature. The School of Computing Research Ethics Committee has been delegated responsibility by the University to approve ethics submissions from undergraduate and taught Masters projects only, which are in the category of notification only.

Examples of projects in this category include:

- Anonymous surveys in which the topic itself is not likely to elicit significant difficulties for the participants, such as: anonymous internet surveys (e.g. Survey Monkey), street questioning.
- Observation (without audio or visual recording) of public settings where privacy would not normally be expected, such as observing people on streets or at sports events.
- Research carrying no risks beyond those of everyday life (as experienced by the intended participant population), such as asking people's opinions about products or services; asking students about educational experiences; monitoring the impact of daily activities.
- Interviews with public figures, professionals or others in their professional capacity regarding their professional activities.
- Analysis of data (e.g. health records) which have had all identifying information removed by the data holder and been provided to the researcher in accordance with data protection legislation.
- Collection of biological samples which are anonymised and do not require invasive techniques (e.g. hair, nails).

If your project is using data from a public repository like Kaggle or is not generating or using any form of personal data then you do not need research ethics approval, you do not need to complete and to submit this form and your project supervisor should indicate this on the project dashboard.

If your project involves collecting or processing personal data which is of a personal nature, you must first complete the DCU online Data Protection training course and review the "Data Protection – Key Points for DCU Researchers" guidance from the Data Protection Unit to assist you in meeting your legal obligations under GDPR and associated Irish law.

Once you have completed this form (if you need to) you should save it as a PDF file, not WORD, and upload it to the your project dashboard before you start gathering data. It will then be read and assessed by two members of the committee and once two members of the committee approve your submission you will be automatically notified by email and your project can start data gathering.

There are strict deadlines for submitting this form for each class group, undergraduate and taught Masters by which your submission must be made and you will be informed of these deadlines by your course board chair or project co-ordinator. If you do not submit by these deadlines then the research ethics committee is not obliged to approve your submission and when that happens and your project is assessed and graded at the end of the year, you will be awarded 0 for that component of your project.

_____

SECTION 1 – GENERAL DETAILS

1.1 Project Title

PinPoint - event planning for everyone

1.2 Applicant Details

Name	Student or Supervisor	E-mail
Michael Beirne-Ponomarev	Student	michael.beirneponomarev24@mail.dcu.ie
Robert Maloney	Student	robert.maloney26@mail.dcu.ie
Sahraoui Dhelim	Supervisor	sahraoui.dhelim@dcu.ie

Other Investigators: *Including any external to DCU*

Name	School/Unit/External Institution	E-mail

1.3 Key Project Dates

Proposed start date for data collection	Proposed end date for data collection	Proposed project completion date
11/11/24	20/12/24	14/03/25

1.4 Please indicate which academic award

Undergraduate ☒	Taught Masters ☐

1.5 Please confirm the location(s) where the research will be carried out

If research will be carried out abroad, you will need to address the ethical challenges raised by this in Section 3 of your application - consult the Conducting Research Abroad document in the Ethics Resources and Guidelines section of the [DCU Research Ethics webpage](#)).

DCU Glasnevin Campus DCU St. Patricks Campus

1.6 Please state what additional permissions may be required to access participants.

Specify from whom the permission is required (e.g. a school Board of Management), and when their written approval will be obtained

N/A

SECTION 2 – PROJECT DESIGN AND METHODOLOGY

Research Overview - Please respect the indicated word counts in the following sections and explain all acronyms in full text the first time they appear.

2.1 Provide a brief description of the research (max 250 words):
Please use lay language, include the scientific/theoretical background of study and a justification as to why this research project should proceed in that context

> For our application, the research that we would carry out is the feedback that we would find throughout the user-testing phase of the application. This is the standard means of testing completed for applications of this nature.
>
> The purpose of this research is that we would have a more refined version of our application that has implemented the various aspects that we received from the people that we had met in these public settings that were previously mentioned. By examining the audience of our research we may also further assess our target market.

2.2 Please state the aims and objectives of the project (max 200 words)

> The project is a social-media application, primarily to be configured for mobile devices, that is focused around a central map. Users can "pin" a location on this map and then invite other users to hang out.
>
> They can set up a proposed time and description or links of what will be happening in the area, temporary group chats for these events can be created which will be deleted after the pin is removed. You can set public events that can be seen by mutual friends or keep everything private. You can "favourite" locations that you frequently visit as well as groups of friends you normally hang out with.
>
> At these events with your friends, you can upload photos to the pin that can be shared publicly or kept private afterwards. Users who were at the event will receive these photos, which can be posted on a timeline. This timeline could also include advertisements and events listed by bars, clubs or societies to let people know about future events.

2.3 Please confirm your methods of data collection:
Tick all relevant check boxes and provide details for each one, including any devices used to collect data, and whether the data will be anonymous, potentially identifiable or identifiable <u>at point of collection</u>

Method	Describe briefly
☒ Interviews or focus groups	Asking groups of people questions regarding how they made plans and if there are any ways to streamline the process. Interviews with a selection of individuals for application testing.
☐ Surveys/questionnaires	
☐ Audio/video recordings	
☐ Public observations	

☐ Persons in public office	
☐ Using existing data (incl. secondary data)	
☐ Using human derived material (biological samples)	
☐ Standard tests (educational/personality etc.)	
☐ Standard educational practices	
☐ Other (please specify)	

2.4 Please confirm who the participants on this study will be, including group size and composition:
Include associated demographic characteristics, and state how your proposed sample size was determined (e.g. power analysis)

Young Adults – 18-24 years old with a social calendar.
We would want to have a small sample size for this as it will be primarily feedback which we will be receiving from these groups.

Marketing Management – Organisers of events - - - This group will be even smaller and as mentioned with the young adults it will be mainly feedback and their thought process that will be taken into account to develop our application further

2.5 Please outline your recruitment process, including where you are sourcing participants from and your criteria for inclusion/exclusion:
Where gatekeepers are involved, outline the procedures relating to their involvement

Approaching small groups in social areas in hopes that they may have a moment to interact with us.

2.6 Addressing participant vulnerability – if your participants fall into any of the following categories, please check the relevant tick box/boxes and state below what special arrangements will be made to protect them:
If your participants are not in any of these categories, tick N/A

☒ N/A
☐ Children under 18 years of age
☐ Persons in unequal relationships with the researcher *(e.g. lecturer-student, therapist-client, employer-employee)*
☐ People with a recognised or diagnosed intellectual, physical or mental impairment
☐ People confined to institutions *(e.g. prisoners, residents in 24 hr nursing facilities)*
☐ People who have undergone traumatic or adverse emotional events
☐ People with diminished cognitive ability
☐ Marginalised sections of society
☐ Other (please specify)

Special arrangements:

2.7 Involvement of children under 18 years of age – if your participants are in this category, please confirm compliance with the following:
If your participants are not in this category, tick N/A

☒ N/A
☐ We confirm that we have read and agree to act in accordance with the DCU Child Protection policy and procedures (*as per the DCU Child Protection Unit webpage*)
☐ We confirm that we have put in place safeguards for the children participating in the research
☐ We confirm that we have supports in place for children who may disclose current or historical abuse (whether or not this is the focus of the research)
☐ We confirm that all requirements will be met prior to commencing the research *(e.g. TUSLA Children First Training completed, Garda Vetting in place)*

2.8 Please confirm how the results of the research will be disseminated:
Include a statement on whether the participants will be provided with any information as to the findings or outcomes of the project

Participants will not receive specific feedback from our sessions with them. They will be informed that any information they provide is based on their personal opinions, which will help assist us in developing and refining of our application to meet the user's needs and expectations.

SECTION 3 – ETHICAL ISSUES AND RISK MANAGEMENT

3.1 Please identify all issues including ethical issues which may arise in the course of this research. What are the potential risks to participants, and how will those risks be addressed or minimised?
Potential risks can be physical, psychological, social, legal, etc. Please include details of any additional support being provided for participants during/after the study

- Privacy and data security concerns with location based services.
- Applications event planning features, which encourage real-world interactions, could lead to various social risks if the application is misused.

3.2 Please identify the potential benefits (direct and/or indirect) to those participating in this research:
Potential benefits should outweigh the potential risks to participants

Direct Benefits:
- Networking Opportunities + First hand exposure to our application
- Potential insight into the app development process
- Satisfaction from using the application

Indirect Benefits
- Encouraging safe social interaction
- Relieving stress and loneliness
- Improving event planning + participation

3.3 Please describe what measures/protocols you have put in place in the event that there are any unexpected outcomes or adverse effects to participants arising from involvement in the research:

If there are any unexpected outcomes based on individuals' opinions, it would still be considered in our project as constructive feedback.

If individuals do not want to interact with us - We will not be persistent in asking them questions.

3.4 Do you intend to provide payment or incentives to participants?

Yes ☐	No ☒

If Yes, please consult the REC Guidelines on the Use of Compensation and Incentives (in the Ethics Resources and Guidelines section of the [DCU Research Ethics webpage)](...) before providing additional details below

3.5 Does this research raise any potential risks for the researchers themselves?
Please consider the location/environment where the research is being conducted, exposure to distressing data content etc.

Yes ☐	No ☒

If Yes, please describe further and explain what risk management procedures will be put in place to minimise these risks to researchers:

3.6 Does this research raise any potential conflict of interest?
Please consider any potential real <u>or</u> perceived conflicts of interest that might influence the integrity of the research, or give rise to bias in conducting and reporting the research, or affecting publication (consult the <u>DCU Conflict of Interest Policy</u> for assistance)

Yes ☐	No ☒

If Yes, please identify and explain the steps being taken to address that conflict:

3.7 Please describe how the conduct of the research will be monitored:
Regular oversight by the PI is required to ensure the project conforms to the procedures set out in this application (especially where several people are involved in carrying out the research procedures)

All of the information that we obtain will be reviewed/monitored by our supervisor *(listed in 1.2)*

SECTION 4 – CONFIDENTIALITY AND DATA MANAGEMENT

4.1 Considering your previous response in section 2.3 of the form on data collection, please confirm whether you are collecting or processing personal data in this research project:
Personal data is any information about a living person, where that person is either identified, or could be identified from the data itself, or when it is combined with other data. This includes paper based, electronic and biological samples data. If your data is fully and completely anonymous, it is not personal data.

Yes ☐	No ☒

If Yes, please confirm your compliance with the following by ticking the checkboxes:

☐ We confirm that we have completed the DCU Data Protection training module on Loop.
☐ We confirm that we have read the "Data Protection – Key Points for DCU Researchers" guidance on the DCU Data Protection Unit (DPU) website and agree to protect and manage our data in accordance with same.
☐ We have assessed the degree of risk inherent in the personal data being used in the research project, and confirm that all DPU GDPR requirements have been met prior to submitting this application *(e.g. completion of Data Protection questionnaire, confirmation that any survey tool being used is GDPR compliant, that required Data Processing or Sharing Agreements will be in place, etc.)*

4.2 Data access – please confirm whether access to participant data is confined to the investigators named on this application:

Yes ☒	No ☒

If No, please name who the other individuals are and why they need access. Any proposed transfer of data (including outside of the EU) should be detailed here.

4.3 Data storage – please confirm compliance with the following:

☐ Data collected on mobile devices will be protected with a strong password/passphrase at a minimum, and/or encrypted if the device supports it
☒ Data will be removed from mobile devices as soon as is practicable and stored in a secured location in DCU (on server or institutional Google Drive)
☐ Paper based data will be held securely in locked cabinets in DCU, with access restricted to the named researchers
Specific arrangements in relation to biological samples should be stated here:
Any exemptions to the above compliance statements should be justified here:

4.4 Please confirm who will be responsible for the secure storage of data generated by the research:
Name the relevant DCU investigator/s

DCU

4.5 Please confirm how long the data will be held for:
For personal data, consult section 15: Retention of Personal Data in the <u>"Data Protection – Key Points for DCU Researchers"</u> guidance on the DCU Data Protection Unit (DPU) website

For the duration of the CSC1118 Project.

4.6 Please confirm what will happen to the data collected at the end of the study:
Please tick the relevant checkbox and complete the associated follow-up section for that category

Archived ☐	Destroyed ☒	Other ☐

4.6.1 Archived data
Please provide the following details:

Name the DCU staff member responsible for archival and future use of data	
Confirm whether the data will be made available to other researchers, and if so, how?	
Confirm <u>how</u> the data will be prepared for archive (e.g. will datasets be anonymised)	
Confirm <u>where</u> the data will be archived and who will be allowed to access it	

4.6.2 Destroyed data
Please provide the following details – Note: for student projects, the supervisor must take responsibility for data destruction if there is no guarantee the student will have access to the data at the time of destruction

Please justify why the data will be destroyed	*The data will no longer be useful.*
Name the DCU researcher responsible for destruction of data	*Sahraoui Dhelim*
Confirm when the data will be destroyed (specify date)	*21/03/2025*
Confirm compliance with the following destruction methods (tick relevant boxes)	☒ Electronic data will be overwritten/securely deleted ☐ Paper based data will be confidentially shredded ☐ Medical samples will be disposed in accordance with the relevant DCU approved SOP

4.6.2 Other - Please explain what will happen to the data if not being archived or destroyed:

SECTION 5 – PARTICIPANT INFORMATION AND INFORMED CONSENT PROCEDURES

In addition to completing this form you are required to attach, within the single PDF that you submit, a copy of (1) the Participation Information Sheet which you share with your participants and (2) a copy of the Informed Consent Form which your participants sign.

5.1 Please confirm that the following items have been addressed in your Participant Information Sheet which should be shared with all participants whether it involves online or in-person data gathering:

The items below should be used as headings in your information sheet. Note the language used under each item must reflect the participant age group and corresponding comprehension level– if your participants have different comprehension levels (e.g. both adult and child participants) then separate sheets must be prepared for each set. Templates are available via the [REC Forms - Applications, Templates and Amendments section](#) *of the Research Ethics website.*

Checklist – tick the relevant check box for each item	Yes	No
Introductory Statement (Researcher names and titles, school, title of the research study)	☒	☐
What is this research about?	☒	☐
Why is this research being conducted?	☒	☐
Why have you been invited to take part?	☒	☐
What will happen if you decide to take part in this research study?	☒	☐
How will your data be used?	☒	☐
How will your privacy be protected (including any legal limits to confidentiality)?	☒	☐
What are the benefits of taking part in this research study?	☒	☐
What are the risks of taking part in this research study?	☒	☐
Can you change your mind at any stage and withdraw from this study?	☒	☐
How will you find out what happens with this project?	☒	☐
Contact details for further information	☒	☐

If you marked any item as No, please explain and justify why:

5.2 Informed Consent Procedures – please confirm whether written consent is to be obtained:
Please tick the relevant checkbox

Yes ☐	No ☒

If Yes, describe the procedures by which written consent will be obtained. If you are involving child participants, you will also need to obtain their written assent. Templates are available via the [REC Forms - Applications, Templates and Amendments section](#) *of the Research Ethics website.*

If No, describe the procedures regarding how consent/assent will be obtained:

If you are gathering data from an online process such as Google Form or SurveyMonkey then you should use a page such as the one below, to capture participants' informed consent and your data gathering should not proceed until participants have completed this form with the appropriate answers.

Participant – please complete the following (by clicking Yes/No for each question)

I have read the Plain Language Statement (or had it read to me) *

◉ Yes

○ No

I understand the information provided *

○ Yes

○ No

I have had an opportunity to ask questions and discuss this study *

○ Yes

○ No

I understand the information provided in relation to data protection *

○ Yes

○ No

I have received satisfactory answers to all my questions *

○ Yes

○ No

I understand I may withdraw from the Research Study at any point *

○ Yes

○ No

I have read and understand the arrangements to be made to protect confidentiality of data, including that confidentiality of information provided is subject to legal limitations *

○ Yes

○ No

I have read and understand confirmations relating to any other relevant information as indicated in the PLS *

○ Yes

○ No

I consent to participate in this research study *

○ Yes

○ No

SECTION 6 – SUBMISSION CHECKLIST AND RESEARCHER DECLARATION

6.1 Please confirm all required supplementary documentation to be included in this application within Section 7:

Checklist – tick the relevant check box for each item	Yes	N/A
Participant Information Sheet/s	☒	
Informed Consent Form/s	☒	☐
Informed Assent Form/s	☒	☐
Recruitment Advertisement	☒	☐
Questionnaire/Survey	☒	☐
Interview/Focus Group Questions	☒	☐
Debriefing Material	☒	☐
Bibliography	☒	☐
Approval from another Research Ethics Committee	☒	☐
Evidence of other external approvals (e.g. Board of Management letter)	☒	☐
Evidence of internal approvals (e.g. BSC approval review letter)	☒	☐
Other – provide details here:	☒	☐

6.2 Signed Declaration

By submitting this form, the applicant (and supervisor) agree to the following:

The information contained herein is, to the best of my knowledge and belief, accurate. I have read the University's current research ethics guidelines, and accept responsibility for the conduct of the procedures set out in the attached application in accordance with the form guidelines, the REC guidance and resources, the University's Conflict of Interest Policy, its Code of Good Research Practice and any other condition laid down by the Dublin City University Research Ethics Committee. I have attempted to identify all risks related to the research that may arise in conducting this research and acknowledge my obligations and the rights of the participants.

I also acknowledge my requirement to be informed as to other duties and legal obligations applying to my research, and to comply with these duties and obligations – this includes being informed about DCU Data Protection guidelines for researchers, DCU Child Protection policy and procedures (where relevant) and DCU Insurance requirements.

I and my co-investigators and/or supporting staff have the appropriate qualifications, experience and facilities to conduct the research set out in the attached application and to deal with any emergencies and contingencies related to the research that may arise. Research will not commence until required consents and approvals are in place.

Electronic Signature(s):

Supervisor: _____

Print Name here:____Sahraoui Dhelim_____

Date: _18/10/2024_____

Student(s) signature(s):_Michael B. P_____Robert Maloney_____

Print Name(s) here: MICHAEL BEIRNE-PONOMAREV_____ROBERT MALONEY_____

Date: 16/10/2024

SECTION 7 – SUPPLEMENTARY DOCUMENTATION

Please attach all required documentation as confirmed by you in the previous section. The application should then be saved as one file in <u>PDF format</u> before submission via the project dashboard.

Consent Form Participant – please complete the following (by clicking Yes/No for each question)

I have read the Plain Language Statement (or had it read to me).

◉ Yes

○ No

I understand the information provided.

◉ Yes

○ No

I have had an opportunity to ask questions and discuss this study.

◉ Yes

○ No

I understand the information provided in relation to data protection.

◉ Yes

◯ No

I have received satisfactory answers to all my questions.

◉ Yes

◯ No

I understand I may withdraw from the Research Study at any point.

◉ Yes

◯ No

I have read and understand the arrangements to be made to protect confidentiality of data, including that confidentiality of information provided is subject to legal limitations.

◉ Yes

◯ No

I have read and understand confirmations relating to any other relevant information as indicated in the PLS.

◉ Yes

◯ No

I consent to participate in this research study.

◉ Yes

◯ No

This form was created inside Dublin City University.

Google Forms

A Participant Information Sheet should use language that reflects the participant age group and corresponding comprehension level. It should cover the following items, retained as headings in the sheet (they are for the participant to read and are therefore phrased accordingly). The information in italics is to prompt the research team to provide the appropriate detail under each heading. Please include additional sections if necessary for your research

Introductory Statement

Identify the researcher names and titles, the DCU school they are from, and title of the research study. Details of any external funding should be included on the PIS where relevant.

Our names are Michael Beirne-Ponomarev & Robert Maloney. We are currently studying Computing for Business within the School of Engineering & Computing. The research study that we are working on is titled Pinpoint – Event Planning for All.

What is this research about?

The research we are conducting is asking various groups of individuals certain questions based on how they currently plan their events along with how it may be streamlined for our application. We also plan on asking on potential feedback

Why is this research being conducted?

This research is being conducted as we would like to be able to interact with potential users on a first-hand basis. It is crucial that any of the information that we receive is taken into account, as we would like to see our application thrive within todays society. We may take into consideration additional features that are suggested along with addressing various concerns that the user may have while using PinPoint.

Why have you been invited to take part?

You have been invited to take part in our research as we feel that you fit our target market for our application (Young Adult / Marketing Representative). We feel that individuals such as yourself could find enjoyment and relief from using our application on a day-to-day basis.

In the even that there is a dependent relationship between the individual and the researcher. This will not affect your assessment, grading or management within your studies.

What will happen if you decide to take part in this research study?

If you choose to participate in our research studies, we will ask very open style questions. Such as "What do you think could be added?" or "Is there any concerns?" These questions can vary and should only take a maximum of 10 minutes.
Any answers given will be anonymous and we will not ask for any of your personal details. Remember that we are only looking for your opinions and thoughts on our application to enhance it.

How will your data be used?

Your data will be primarily used to refine and enhance our application. As mentioned above, the types of questions will be broad and will be based on your opinion.
In terms of how the data will be stored – It will be stored securely on our DCU GitLab repo so that it can only be accessed by us on stored within the DCU servers.
Once our project has been completed – your data will be securely deleted or overwritten as it will not be of use once the project has been finalized.

How will your privacy be protected (including any legal limits to confidentiality)?

All participants that are taking part will remain anonymous and as mentioned above. We will not ask for any personal information to ensure that participants will remain anonymous and that they feel secure about giving their opinions.
Although there may be times when it cannot be guaranteed that it will be protected for the time that is stored. All information that has been given will not contain any personal details – e.g Participant 1 – "The App would be nicer if it contained a different font"
If there are any queries from this please ask before taking part in our research.

What are the benefits of taking part in this research study?

Direct Benefits:
- *Networking Opportunities + First hand exposure to our application.*
- *Potential insight into the app development process.*
- *Satisfaction from using the application.*

Indirect Benefits
- *Encouraging safe social interaction.*
- *Relieving stress and loneliness.*
- *Improving event planning + participation.*

What are the risks of taking part in this study?

- Privacy and data security concerns with location based services.
- Applications event planning features, which encourage real-world interactions, could lead to various social risks if the application is misused.

Can you change your mind at any stage and withdraw from this study?

The participation within this project is entirely voluntary and you have the right to withdraw your consent at any time prior to the finalization of the project. If you do choose to withdraw please inform us and your involvement with our project will end immediately.

If there is any data that is taken and secured, it will be overwritten or securely deleted as mentioned above. However, this can only be done before your data has been anonymized or the findings have been already published.

How will you find out what happens with this project?

If the conclusion of this project, you may have the opportunity to learn about the various results and outcomes. There may be a potential summary for the projects findings will be shared with all participants.

If there are any specific questions that may be asked feel free to get in touch with us for a follow-up session on the progress of the project. We would be more than happy to assist and catch you up on how the project has been taking shape.

Contact details for further information:

Name	Contact
Robert Maloney	robert.maloney26@mail.dcu.ie
Michael Beirne-Ponomarev	michael.beirneponomarev24@mail.dcu.ie

If there any queries or questions for further information about the project or the questioning process please contact us.
If participants have concerns about this study and wish to contact an independent person, please contact: The Secretary, Dublin City University Research Ethics Committee, c/o Research and Innovation Support, Dublin City University, Dublin 9. Tel 01-7008000, e-mail rec@dcu.ie
